

Rural Emergency Advanced Clinical Training (REACT+)

THURSDAY 31 JULY AND FRIDAY 1 AUGUST 2025 | GERALDTON

This two-day Rural Health West CPD workshop is designed to assist Western Australian Visiting Medical Practitioners to maintain their emergency knowledge and skills, and gain formal assessment towards their emergency credentialing, as required by WA Country Health Service.

Covering medical emergencies, major trauma and cardiac arrest in adults and children, and associated lifesaving procedural skills training, REACT+ is a highly interactive workshop. Participants are provided with audio-visual pre-learning materials and the course consists almost entirely of small group practical skills stations and simulated scenarios.

Accreditation:

16 Educational Activity and 7 Reviewing Performance hours with the Royal Australian College of General Practitioners.

12.75 Educational Activity, 11.83 Performance Review, 6 Anaesthetics (Practice Evaluation) and 6 Emergency Medicine MOPS hours with Australian College of Rural and Remote Medicine.

This workshop is eligible for the Rural Procedural Grants Program, Anaesthetics and Emergency Medicine components. *Please contact your college for eligibility prior to attending the course.*

22.5 ACEM CPD hours.

Cost: \$2500

Eligibility: All medical practitioners are welcome to register, with priority given to currently practising rural and remote medical practitioners.

Registration: Scan the QR code below to register for the workshop. All successful applicants will receive written confirmation 6-8 weeks prior to the workshop.
